# HOW TO EDIT CONTENT ON LANDING PAGE

1. Navigate to Site Pages and select Front Page.
2. Here you will find fields for all the editable sections on the landing page.
3. You can edit content for Hero Banner section, change the numbers for the works, number of people
4. served and registered users, amend your content in the About section and also the 3 columns that
5. appear in that section.
6. As you scroll down the content of the Front Page you will see further fields and option to update the
7. details relating to the Device Compatibility Section.

The screenshot displays the 'EDIT PAGE' interface for the 'Front Page'. The left sidebar contains navigation options: DASHBOARD, REBRAND TOOLS, SITE PAGES (highlighted), ALL PAGES, ADD NEW, WORKOUT VIDEO, LIVE STREAM, MEMBERSHIPS, USERS, SETTINGS, INSTAGRAM FEED, and GOOGLE ANALYTICS. The main content area is titled 'EDIT PAGE' and includes an 'ADD NEW' button. Below this, the 'Front Page' title and a permalink are shown. The 'HOME PAGE HERO SECTION' is expanded, showing fields for 'Hero Headline' (containing 'Work-strong>out/<strong> With Us'), 'Hero Strapline' (containing 'A growing library of workout videos>bnfor all levels and abilities'), and three 'Hero Metric' fields: 'Hero Metric 1' (Number of workouts, value 65), 'Hero Metric 2' (Number of people served, value 28), and 'Hero Metric 3' (Number of registered users, value 28). The 'HOME PAGE ABOUT SECTION' is partially visible at the bottom. On the right, there are sections for 'REQUIRE MEMBERSHIP' (with checkboxes for 'Amplify Live Paid Membership', 'Super Admin', and '7 Day FREE trial'), 'PUBLISH' (with 'PREVIEW CHANGES' and 'UPDATE' buttons), and 'APPEND A NINJA FORM' (with a dropdown menu set to 'None'). At the bottom right, there is a 'VIMEOTHEQUE SHORTCODE' section with an 'ADD VIDEO SHORTCODE' button.

## HOW TO CHANGE PAGE IMAGES

1. The hero image on the workout page can be amended under the Rebrand Tools -> Theme Options.
2. You can select an image that will appear on mobile devices in place of the video.
3. You can select an image to create a background for the About section on the landing page. Under
4. this you can choose the colour that will overlay this section along with the opacity level.
5. The image under the About section is optional.
6. You can select an image for the background that appear in the Device section of the landing page.
7. You can select an image for the background that appears where your Instagram posts load.
8. The last option is for the subpages which will appear on all other pages on the site.

## HOW TO ADD A FAVICON

1. A favicon is a small image that appears in the browser tab and helps to identify your website when users bookmark your site.
2. To set this image navigate to Rebrand Tools - Fonts and Identity
3. Settings - Site Identity. You can then upload an image which should be square and 512px x 512px.
